11. Assistant widget (global overlay)

1. Landing

Public marketing/entry screen — brand mission, process, insights, CTA into Auth

TOP NAV: [Logo/Hive icon] Product Process Insights [Sign In]

HERO SECTION
"Onboarding that meets you where you are"
[Get Started ->] (Honeycomb animated bg)

2. Auth

Member sign in / register (and separate Admin login flow)

Sign In | Register (tab toggle)

Email address

Password

Continue [button]

[Forgot password?](#)

[New here? Register](#)

(Admin Login is a separate route/screen, same layout, admin-only credentials)

3. Personalise

Role selection — shapes which roadmap content the user sees

"What is your role?" — sets Day1/Week1/Month1 content

8. Milestone Celebration

Overlay shown when a roadmap phase is completed

(dimmed dashboard behind, confetti/animation not shown)

9. Admin Login

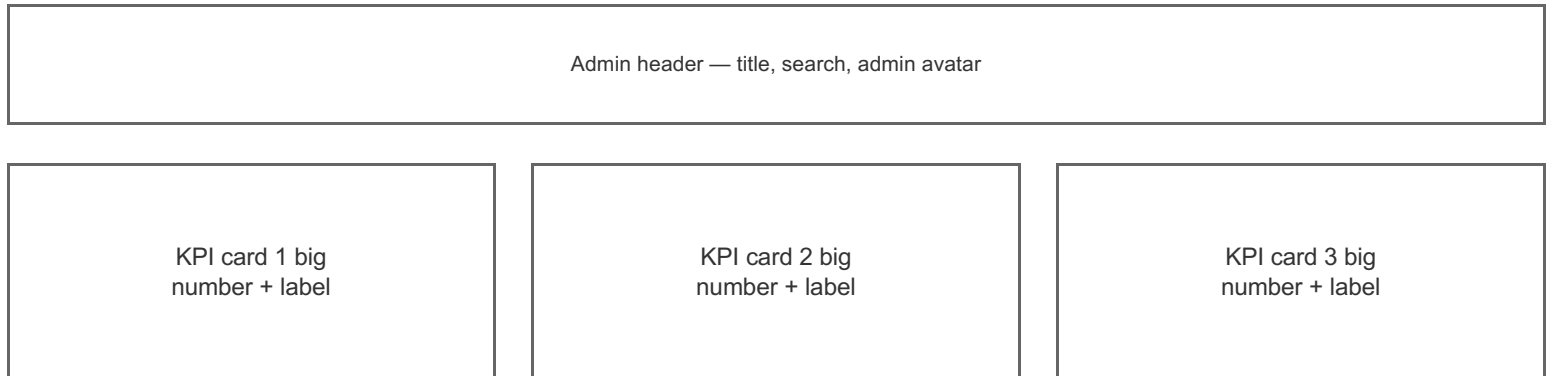

Separate protected route — token gated (VITE_JWT_SECRET)

Admin Login

Admin email
Password
Sign in [button]

10. Admin Dashboard

Own sidebar + header (no site top bar) — onboarding metrics console

11. Onboarding Assistant (global widget)

Local non-LLM Q&A widget — docks bottom-right after scrolling past 3D guide

Appears on top of Landing / Dashboard / People / Documents (not on Admin console)
